SUMMARY

Solution Architect with 12+ years of experience designing and scaling enterprise eCommerce platforms on Adobe Commerce (Magento). Specialized in SAP, MDM integrations via Boomi and Direct, and cloud-native architectures on AWS. Proven track record of building high-performance platforms supporting large product catalogs and real-time enterprise workflows. Handled multi-country commerce platforms with 100K+ catalog and real-time SAP integrations. Strong focus on system design, performance optimization, and engineering leadership. Actively leveraging AI-assisted development to improve productivity and delivery efficiency.

CORE SKILLS

eCommerce Platforms:

Adobe Commerce (Magento 2), Headless Commerce, Multi-store Architecture, Integration (SAP, MDM, Boomi)

Backend & Architecture:

Node.js, REST APIs, GraphQL, Microservices Architecture, Event-Driven Systems

Cloud & DevOps:

AWS (EC2, S3, RDS, Auto Scaling, CloudWatch), Docker, CI/CD (Git), Magento Cloud(zero/minimal-downtime releases), NewRelic

Performance & Data:

Redis, Elasticsearch, OpenSearch, Varnish, API Optimization

AI & Productivity:

ChatGPT, GitHub Copilot, Gemini - AI-assisted development, debugging, and optimization

EXPERIENCE

Staff Engineer — Nagarro

Jan 2026 - Present

Client: ASSA ABLOY (B2B/B2C – Security & Hospitality Products)

- Owned platform scalability for multi-country commerce platform handling 100K+ products and high-volume transactions across 30+ regions
 - Led end-to-end architecture for global commerce platform improving system performance and scalability by 30%+
 - Defining SAP (MDM, Pricing, Orders) integration patterns via Boomi including data modeling, real-time synchronization, and error handling strategies
 - Defining Magento architecture standards (performance, indexing, modular design)
 - Leading cross-team architecture decisions, mentoring engineers, and ensuring delivery quality
 - Designed SAP-based product configurator with dynamic pricing via APIs, eliminating reliance on external configuration tools
-

Associate Staff Engineer — Nagarro

Aug 2020 - Dec 2025

Client: ASSA ABLOY (B2B/B2C – Security & Hospitality Products)

- Led platform foundation setup and migration from IBM WebSphere to Magento (Adobe Commerce)
 - Consolidated 39+ country stores into a unified multi-domain application
 - Managed production defects and monitoring alerts, reducing incident resolution time by 25%
 - Managed 110K+ shared catalog with complex pricing and B2B company structures
 - Improved API performance by 30–40% using caching and architecture optimization
 - Led team of 5–8 engineers and owned production deployments, monitoring, and incident handling
-

Client: VF Corporation – (Kipling, Eastpak)

- Developed B2B/B2C commerce platforms for global fashion and retail brands
 - Supported multi-country store for different business operations and high-volume transactions
 - Leading DevOps and code review process.
-

Software Engineer — Auriga IT

Oct 2015 - Aug 2020

Key Projects:

- **Get Healthy:** Worked on client-side development for a doctor appointment-based project built on Magento 2.3.2.
- **Nihal Fashion:** Developed and optimised a high-performance e-commerce platform, implementing dynamic custom option features for enhanced user experience.
- **Shopagi:** Worked on a Magento 1.9.2 jewellery e-commerce platform (Shopagi), building advanced filtering and customised product options to enhance user experience.
- **Cutasu:** Built a Magento 1.9 store for Shirt Customisation and order management modules.
- **Amazon Pay Plugin:** Developed a payment plugin for Magento 1.x & 2.x with refund and settlement logic.

Software Engineer — Gravita / WDP / Jhalani

Oct 2013 - Sep 2015

- Built Magento stores, modules, and integrations
 - Integrated payment gateways and frontend customizations
-

KEY PROJECTS

- SAP-integrated B2B Magento platform with multi-store setup and real-time synchronization
 - SAP-driven Product Configurator with dynamic pricing and API-based integration, replacing external configuration platforms and reducing licensing and integration overhead
 - Microservices-based integration platform using Node.js for enterprise workflows
-

EDUCATION & CERTIFICATION

B.Tech — Rajasthan Technical University

Adobe Certified Professional — Magento Developer

ADDITIONAL INFORMATION

- Strong experience in system design, distributed systems, and cloud-native architecture
- Experience handling high-scale systems with large catalogs and real-time integrations
- Actively exploring AI-driven automation and intelligent system integrations
- Languages: English, Hindi
